CURING LEPROSY.

No Less Than 2,000,000 Cases in World is Claim. Every Country in the World Has Many Cases—More Prevalent in Non-Christian Countries.

By Frederick J. Haskin.
Washington.—In the conquest of leprosy, for which a specific cure has been developed by American physicians at the Hawaiian leper colony, one of the oldest and most terrible plagues of the human race has yielded to medical science.

Dr. Jonathan T. McDonald, who has been associated with the work in Hawaii for twelve years and played an important part in perfecting the cure of the disease, gives some facts about this most ancient of the ills of man and how it has yielded to treatment.

Although there are many diseases which are known to have attacked man through the ages of civilization, leprosy is undoubtedly the most ancient of them all. Records of leprosy in China go back 4,000 years, or 4,000 years before Christ.

Whereas Egypt is generally conceded to be the birthplace of this disease, the contagion and spread of leprosy throughout the world has been terrifying in its completeness. Scarcely a country, no matter how tiny or remote, has not at some time been touched by it. The name of the disease has been translated into every language.

In practically all cases where leprosy has been carried from one community or country to another it has been carried by human beings. For centuries have been known to date, any lower animal which is capable of contracting leprosy. In the year A. D. the disease was spreading all over Europe. The Romans got it from the Greeks. Pompey had carried it into Italy as early as the first century. B. C., and it was common among the Jews 200 years previous to that. Later pilgrims from the Holy Land carried leprosy to England and the noble armies of the Crusaders spread it widest when returning to their home lands the tenth, eleventh and twelfth centuries. Wales, Ireland, Norway and Sweden became so infected as to have the disease assume the proportions of a plague.

The exact date when the disease invaded America cannot be traced, but it is thought probable that most of the comparatively few cases in this country have been brought by returning travelers who visited the Orient.

At the present time, according to statistics compiled by Dr. Victor G. Heiser, there are two million lepers in the world; that is, one out of every 800 inhabitants of the world is a leper. The largest number of these are in China. According to a conference held at Calcutta in February of 1920, it is estimated that there are approximately 150,000 lepers in India. There are several thousand in Japan, and in Hawaii, in spite of the popular belief that Molokai houses a large percentage of the world's lepers. There are many cases of leprosy in the United States and South American countries and comparatively few scattered throughout Mexico, the West Indies, the United States and Canada. Russia and Sweden have some cases, and leprosy is common in Asiatic countries other than those mentioned. The western coast of Africa is also seriously infected with leprosy, and it has been seen that leprosy has not yet ceased to be a world menace.

And what methods has the world used to get rid of this most distressing First of all, segregation has been practiced; and, secondly, medical attempts at remedies. Leprosy is spread by bacteria, especially those of the nose secretions, according to the most general belief, although its origin has been attributed variously to climate, too little salt in food, insanitary living conditions and eating spoiled fish.

The idea of segregating lepers occurred to mankind at an early date. Herodotus says that the Persians had his line called lepers. Moses, following the customs of ancient Egypt, segregated the lepers among the Jews. History shows that the Chinese went so far as to burn lepers alive. Medieval France provided lepers with rattle to warn all of their approach and enforced quar for the spread of these unfortunate.

Today all Christian countries have sanitariums or missionary hospitals for the care and segregation of those afflicted with leprosy. There are three hospitals for lepers in the United States, located in the states of Louisiana, California and Massachusetts. The hospital near Carville, La., on the Mississippi river, was recently made a Federal hospital for lepers, in accordance with the law finally passed by congress.

In Russia, lepers are sent to Siberia. In the Philippines, they are placed on pyres of green leaves of a tree supposed to possess healing qualities. The skin of the victim is slowly cooked, or scorched and the

HUNDREDS GATHER AT BURNING SCENE

White Citizens Take Up Collection to Rebuild Churches Destroyed by Mob.

Moultrie, Ga., June 19.—Hundreds of people today visited the scene, where John Henry Williams, negro, was burned to a stake yesterday by a Colquitt county mob after he had been taken from a strong guard in front of the court house. Williams' charred remains were still clinging to the stump late this afternoon.

Williams was convicted and sentenced to hang for the murder of Louis Wilkes, 12 year old white girl.

The Autreville scene of Colquitt county, which has been in a turmoil since last Monday, the day the little girl was slain, was quiet tonight. Prominent white citizens, especially those residing in the Autreville section, started taking up a collection today to rebuild the negro churches, lodge buildings and homes destroyed during the week by reprisal raiders. One negro was shot and several were whipped by mobs.

FIND BODY ON ROAD.

Threats to Burn 'Prove to Be Misleading.'

Memphis, June 19.—Excitement incident to the disappearance last night of the body of Sherman B. Mond, negro, from Pope, Miss., where he was shot and killed while resisting arrest, and the report that a crowd of mobbed citizens had been bringing it to a suburb near here with the intention of burning it ended today with the finding of the body on the roadside near the Mississippi line, about 12 miles south of Memphis.

PRESIDENT ASKED ABOUT PEACE PLAN

Hamilton Holt Says Harding Opposed No Substitution for League of Nations.

New York, June 16.—Hamilton Holt, magazine editor, who headed the delegation of pro-league Republicans that called on former President Wilson during the last Presidential campaign, today made public a letter he had written President Harding asking him to explain to the American people the terms of the Harding agreement proposed to supplant the Wilson league of nations.

"If you delay much longer, people everywhere will inevitably conclude that you have no concrete plan at all, or else that you propose to put party harmony above world welfare," declared Mr. Holt. "In that event, there will be nothing left for those who want America to play her rightful part in stabilizing the world but to organize the country so as to enforce Congress to ratify the league of nations."

CHECK FOR BUILDING.

Southern Public Utilities Company Main.
Charlotte, N. C., June 16.—The Southern Public Utilities Co., operating street railway, gas and light systems in Charlotte, Winston-Salem, Greenville and Anderson, S. C., and other towns, will suspend all construction work until the volume of business and receipts are again something like in keeping with the cost of furnishing service," according to official announcement made tonight following an all day conference of the general office staff and branch managers.

reper. If he survives this rough trip, it is said to have been the disease. The reason the Negro is so much more prevalent in non-Christian countries is said to be that the Bible impresses Christians with the fact of leprosy. In the early days of Christianity, it was considered in full accord with Biblical teaching for communities to drive the "unclean leper" out of their midst and send him, a shunned wanderer, upon the face of the earth, or even to stone him to death.

Chester County Day

JULY 4TH.

BASE BALL--HORSE RACES

Speech By
Congressman Stevenson

PLENTY OF AMUSEMENT

Come to Chester and Enjoy Yourself

Make it a Big Set-Together Day

Scouts Leave for Camp Lakota.

Some thirty scouts left with Beemer Harrell this morning for Camp Lakota. Doty Phillips, with his assistants, have been at Camp for three or four days preparing for their arrival today. The boys carry with them a professional cook, who will look after their diet. The camp authorities have spread no trouble and time to secure him. He has come and state if you desire supper so that arrangements may be made to serve you. Meals are fifty cents.

The boys are busy getting settled in their new home, so visitors are uninvited today. Visiting days will be Monday and Tuesday afternoon and evening. Register when you come and state if you desire supper so that arrangements may be made to serve you. Meals are fifty cents.

Mr. Holt, a member of the league to enforce peace, took a hand in the last Presidential campaign by making public a list of 100 Republicans who had bolted the Harding ranks.

HEAD OF STATE MILITARY FORCE DIED THURSDAY NIGHT

Adjutant General Moore Passed Off or Being Seriously Ill Short Time.

Columbia, June 17.—All State government offices are closed today in honor of the late adjutant general, W. W. Moore, who died here last evening. No announcement has been made as yet as to the funeral, this depending on the wishes of General Moore's son, James T. Moore, Captain of the marines who has been stationed at Bingham, Mass., and of his daughter, Mrs. Henry E. Davis, of Clemson College, who will arrive this afternoon. The funeral will probably be held in Harwell, the general's old home, Saturday or Sunday.

Gen. Moore was a descendant of a family which has been identified with the history of South Carolina since the colonial days. He was born at Hendersonville, S. C., December 30, 1868. He received his primary education from the common schools of his native county, and his academic education from the Citadel, which he attended in 1884-85. The deceased was an indefatigable worker in behalf of the National Guard, to which he devoted his life, and was a devoted and conscientious public officer. One of the greatest disappointments in his later years was that his physical condition would not permit him to enter the army and participate in the world war. However, he made up for the fervor which he labored for his country in his office and the assistance and advice he gave to the military authorities.

FOUR LOSE LIVES IN HOUSE

Mother of Three Victims, Body Burned, Lungs From Window.

Cumberland, Md., June 16.—The three children of Mr. and Mrs. John Reek and Mrs. Reek's sister, Miss Reek, lost their lives in the fire that destroyed the Reek home at Meyersdale this morning. The fire in the cooking stove, which is believed to have caused the blaze, was kindled by John Reek, Jr., 5 years old. Mr. Reek had already left for his work at the Consolidated Coal mine. Some minutes later, flames were discovered by neighbors, who found the entire interior of the house ablaze. Mrs. Reek escaped by jumping from a second floor window. She was badly burned on her arms and hands and her back was injured. She was removed to the home of a neighbor, where her burns were dressed.

NEARLY 500 MODERN MACHINE GUNS FOUND CONCEALED ON SHIP

Taken by Custom Officials From Steamer, Loading for an Irish Port.

New York, June 12.—Custom officials have seized nearly five hundred modern machine guns alleged to have been found concealed aboard the steamer East Side tied up in Hoboken, loading for an Irish port. This became known today when the Hoboken police clashed with the customs men over possession of the arms. The guns finally were taken to Hoboken police headquarters.

According to Police Chief Hayes, of Hoboken, the arms were seized yesterday by the federal agents, and how to get it, and then consider every sacrifice necessary in order to obtain it well worthwhile. It taken the state of New York at just this time, to make us lay strong enough foundation upon which to build for future efforts, and if we are sincere in our purpose we shall discover the way in time, even though discouragement and despair may threaten to overwhelm us. But once having got the state of New York at just this time, to make us lay strong enough foundation upon which to build for future efforts, and if we are sincere in our purpose we shall discover the way in time, even though discouragement and despair may threaten to overwhelm us. But once having got the state of New York at just this time, to make us lay strong enough foundation upon which to build for future efforts, and if we are sincere in our purpose we shall discover the way in time, even though discouragement and despair may threaten to overwhelm us. But once having got the state of New York at just this time, to make us lay strong enough foundation upon which to build for future efforts, and if we are sincere in our purpose we shall discover the way in time, even though discouragement and despair may threaten to overwhelm us. TUESDAY, JUNE 21.

Within three nights three automobiles have been stolen in Chester. Saturday night, a car was stolen off of Main street in Lancaster and yesterday and today daily papers record other automobile thefts in various sections of the state.

The stealing of automobiles is getting to be a very common thing and will continue to be until the hand of the law begins to keep long and hard sentences on those who are as low as to resort to the stealing of another man's property.

Very few who steal cars get more than five years sentence and only a few get this long. To The News a sentence of twenty years for stealing an automobile appears to be light. As a matter of fact, it would be like to a life sentence placed on all who are convicted of stealing automobiles in South Carolina.

During this season of commencement one of the most frequently heard expressions is, "Well, now their happiest days are over." It is perfectly true that school and college years are happy and carefree, but such a cynical and depressing greeting is hardly a fitting one with which to send the young men and women out to the tasks that are awaiting them. One might as well tell the man who has just been appointed to a position of trust and opportunity that one is sorry for him.

The beauty of living lies in the fact that each period in life has joys and attractions peculiar to itself. To the old age is therefore not necessarily so painful as it is often pictured.

"Grow old along with me;
The best of life is yet to be;
The last, for which the first was made."

Barring extraordinary circumstances, there is no reason why the happiest days are not in store for the young graduate. Instead of throwing cold water on his aspirations, let us wish him the best of luck and leave with him Browning's more robust message, "Greet the unseen with cheer."

High hopes for the light and leading that will help the restoration of normal conditions throughout the world are centered on the conference scheduled to take place in London during the closing days of the present month. The occasion is the annual meeting of the international chamber of commerce. More than 200 of America's leading business men will participate. With them will also be representatives from Belgium, France, Great Britain, Greece, Italy, Poland and Sweden. Although from that list there are notable omissions which at once engage the attention, yet there is a general expectation that the gathering will be sufficient to representative to formulate a policy and start a great onward movement which will remove the difficulties and break down the obstacles that present stand everywhere in the way of a resumption of business on something approaching the prewar footing.

The main theme for discussion is "The Restoration of the World's Commerce." It will thus be seen that the aim is high and that the task is large. The general topic will be taken up by five different groups under the respective headings of transportation and communications, finance, production, distribution and devastated regions. With bankers, distributors, economists, manufacturers, merchants, marine experts and publicists, all of whom are vitally concerned in the outcome and therefore all sincere in their purpose, talking together in the liberations, it will be surprising if something of a tangible character tending toward the rehabilitation of which the world stands so sadly in need is not forthcoming.

It is no exaggeration to say that the public welfare is bound up in a remarkable degree with the success of conferences, and accordingly every one will heartily wish the delegates wisdom in their counsel and the greatest success in their policy and praiseworthy endeavor.

A searchlight, sixty inches in diameter, will be installed on Mount Tamalpais, near San Francisco, to illuminate an amusement park on the mountain. The rays of the searchlight will pick up a battleship twelve miles off and in five hours drive it deeper than a locomotive headlight.

Subject Impels Attention.

Mr. Editor: Your paper of June 14th, at hand and note with interest your center block advertisement or message it may be called.

But the local page touches a subject of compelling interest to all of Chester or Lancaster, and the article at once brings my pen into action.

How many can remember that awful night of February 19th, 1934, when Chester was swept by a mighty cyclone, or the dreadful night of August 31st, 1886, when the earthquake upset things and frightened and the bravest?

Where would the stand-pipe be should history repeat itself? A big question—a momentous question.

So a matter of self-protection it seems that every person able to lift the expense should have their own water supply, either pump or well.

Chester is growing and the great educational institution to be built sometime in the near future bids the enterprising, both with vision, to take the coming years to grapple with the problems that affect our personal well-being and living.

In closing I wish to compliment you on your ringing editorial of June 14th.

M. R.

HAFNER-McILWAIN.

Great Falls, June 19.—One of the prettiest of June weddings was solemnized last Wednesday at 4 o'clock in the afternoon at the home of the bride's mother, Mrs. R. E. McIlwain, of Lancaster county, when Miss Charlotte E. McIlwain became the bride of T. C. Hafner of Chester.

The ceremony was performed by the Rev. Mc. Joplin, pastor of Lancaster Presbyterian church, in the presence of relatives and intimate friends. Miss Carrie Wren McIlwain attended her sister as maid of honor. The bride wore a gown of white crepe de chine, carrying an especially heavy number of executions. The distribution of these funds will, it is hoped, aid the schools in many counties to close the year free of debt.

Mrs. M. A. Hutton has gone to Rockingham, N. C., to spend some time with her daughter, Mrs. Frank Rogers.

COUNTIES OF STATE GET SCHOOL MONEY

State Superintendent of Education Distributes Income From Permanent Fund.

Columbia, June 21.—State Superintendent of Education J. E. Swearingen yesterday distributed among 46 counties the income derived from the permanent school fund in the hands of the state treasurer and the sum collected from the dispensary winding up contemplation. The amount available from this income is \$95,147.25 and from the dispensary balance, \$37,413.

Under the constitution of 1895 the proceeds of all excheated property must be added to the permanent school fund. The principal now in the hands of the state treasurer is \$1,000,000, says Mr. Swearingen. The income is to be apportioned among the several counties on the basis of enrollment as shown in the last preceding report of the state superintendent of education.

The winding up collection of the old state dispensary comes from time to time funds on real estate sales. These collections depend largely upon business conditions. This money is also to be apportioned among the counties on the basis of enrollment.

The postponement of taxes, says Mr. Swearingen, has delayed school revenues in many counties. Several county treasurers report an exceptionally heavy number of executions. The distribution of these funds will, it is hoped, aid the schools in many counties to close the year free of debt.

Mrs. M. A. Hutton has gone to Rockingham, N. C., to spend some time with her daughter, Mrs. Frank Rogers.

COLUMBIA DENTIST RECEIVES SENTENCE

Dr. M. A. Woods to Pay \$1,000 Fine and Serve 18 Months in Jail—To Appeal Case.

Charleston, June 18.—In federal court today Judge H. A. Sikes sentenced Dr. M. A. Woods, dentist of Columbia, convicted of violating the narcotic act, to \$1,000 fine, with costs, and 18 months in the federal penitentiary.

Counsel for the defendant gave notice of appeal, and Dr. Woods was released under bond of \$5,000, pending the outcome of the appeal. Woods was found guilty several days ago, and a motion for a new trial was refused by Judge Smith, who announced he would impose the sentence. This defendant was charged with selling cocaine to two addicts under four counts. Judge Smith has adjourned the June term.

White Criminals Outnumber Negroes

Columbia, June 20.—White men in the state penitentiary outnumber negro men nearly four to one, there being 151 white men and only 42 negro men. The majority of these white men are also young men. Last year about this time there were 89 white men and 146 negro men, making an addition of 62 white men to the population in only one year.

These figures are according to Secretary G. Croft Williams of the state board of public welfare, who made an official visit to the state penitentiary this week. There are also five white women and 43 negro women in the state penitentiary at the present time. Last year there were 25 negro women and three white women.

Negro men are shifted from the penitentiary to the state farms when crop conditions demand it, but the white men are kept at the penitentiary. Mr. Williams says that he was particularly struck with the number of young men in the prison. These young men are healthy and appear to be of normal intelligence, Mr. Williams says. "At the time of life when they should be building up businesses and homes and in other ways doing their part in the affairs of their communities, they are serving time in a state prison for stealing, killing or some other grave offense," he says. "Many have been started at the idea of a crime when going on over the country. However, there can be no doubt that for the last year crime has increased in South Carolina."

Mr. Williams says that he was particularly struck with the number of young men in the prison. These young men are healthy and appear to be of normal intelligence, Mr. Williams says. "At the time of life when they should be building up businesses and homes and in other ways doing their part in the affairs of their communities, they are serving time in a state prison for stealing, killing or some other grave offense," he says. "Many have been started at the idea of a crime when going on over the country. However, there can be no doubt that for the last year crime has increased in South Carolina."

"It was dinner time when I visited the institution," Mr. Williams says, "so I went into the dining room and kitchen. I found the fare wholesome and well prepared. The inmates showed a good spirit and no evidence of having a superior attitude. The humane administration of Col. A. K. Sanders should be commended."

Textile Industrial Institute
Makers of Character and "Character Cloth"
Rev. D. E. Camak, Pres. Spartanburg, S. C.

After having developed an educational system for training leaders who will insure a safer, saner, more Christian, industrial civilization—a system that is being written about and discussed by the leading educational, sociological and religious leaders of today—the Textile Industrial Institute has, after costly experiments and much tedious training of workers, succeeded in producing, through the conscientious and intelligent labor of its students, and by the use of the best materials obtainable, a quality of cotton fabric fully deserving the name "CHARACTER CLOTH," from the sale of which it is proposed to finance the cultural and technical education of its students. "CHARACTER CLOTH" has been sent by parcel post into every State in the Union, though not yet a year old, and we are in a fair way of realizing our dream of a self-supporting, morally and INTELLECTUALLY superior citizen-body in a self-supporting school.

However, we do not ask anybody to buy "CHARACTER CLOTH" because it is made in a school. To do so would be neither good business, good charity, nor indeed good education. You buy "CHARACTER CLOTH" just as you do other things because it is the best cloth you can get for the money. While we sincerely believe it is the best cotton cloth you can get at any price, we are offering it at prices 25 to 40 per cent less than goods of a similar appearance but much less durability are now bringing.

Who is Swift & Company?

Swift & Company is not a one man or one family affair. It is a company owned by more than 40,000 people scattered over the face of the globe—forty thousand shareholders with voting powers and a share in the risks and profits of the business.

Most of the forty thousand live here in the United States. But some of them live in France, some in England, others in the Philippines, Hawaii, Alaska. 15,000 of them are women.

Nearly 14,000 of them are employees. The average individual holdings are small—about 37 shares apiece. No one person or family owns a majority of the stock.

In fact, it would take 900 of the largest shareholders pooled together to vote 51 per cent of the stock. These shareholders are the men and women whose money, in the form of capital, makes Swift & Company possible. They are jealous of the character and reputation of their organization, proud of what it is doing, proud to have a part in supplying to the world such products as Swift's Premium Ham and Bacon, Bepoke's Sausage, Silverleaf Brand Pure Lard, Wool Soap, Swift & Company's Fresh meats, etc.

The executives of Swift & Company maintain the high standards of these products as an imperative duty not only to the 40,000 shareholders, but to the public.

The S. M. Jones Comp'y

LOCAL and PERSONAL

Mrs. J. W. Fulwell is indisposed at her home on Oakland Avenue.

I have recently put in a line of coffins and caskets at my store in Richburg, W. B. Gladden. 21-24.

Deputy J. G. Howze has gone to Columbia today in connection with the automobile which was found in Chester. He will also endeavor to locate the parties who stole Dr. W. E. Anderson's Cole Eight Sunday night and bring back the party who stole the Ford from in front of Dreamland Theatre Saturday night.

Character Cloth will wear longer. Colors better than any cloth on the market. See it at Wylie's.

A very important meeting of the committee responsible for the organization of the city in preparation for the Cuyahoga Valley meetings to be held here during October will be held tonight at 8 o'clock in the committee room of the First Baptist church. This committee consists of the minister and one layman from each church in the city. Every member of the committee is expected to be present at this meeting, when sub-committees will be appointed to handle the many details in connection with making the October meeting a great blessing to Rock Hill. Rock Hill Record.

For That Satisfying service come to the Victory Filling Station.

Local wrestling fans will be interested in the fact that Joe Turner, the Washington veteran, gained permanent possession of the Police Gazette, emblematic of the middle-weight championship, by defeating Pink Gardner last night at the auditorium in Charlotte, in a fast and hard fought bout.

Miss Hannah Heyman and Master Sidney Heyman left today for Georgetown to visit relatives.

G. R. Ball, just opposite the Rockman-Brown Company, is putting out some nice new repair work.

Competitive examinations will be held at several county seats in the state July 8 to fill 38 vacant scholarships at the Citadel, Charleston. The state maintains at the Citadel 68 regular four year scholarships, each beneficiary must receive \$250 plus other prerequisites. Chester county has one scholarship.

Friday will be Pythian memorial day in South Carolina, according to a proclamation issued by Grand Chancellor Tillman, of Columbia, and leaders in all parts of the jurisdiction are urged to hold appropriate exercises. Each lodge is asked to "do the memorial day service as contained in the Pythian service book and invite a speaker for the occasion."

Consumers' Oil Co. handles Wagon Refining Co's gas, the best kerosene, Simultaneous Refining Co's motor oils and cup greases. These goods are the very best money can buy. Gasoline sold through visible pump. Victory Service Station, G. C. Young, Proprietor. Tr.

Captain "Bill" Bacon, conductor on a through freight on the Seaboard, had a narrow escape from serious injury on Friday morning about 5:45 o'clock when he attempted to board his cab as the train was pulling out of Elizabeth. He missed his footing and was thrown to the ground. As it happened to be the step on the cab he lost his limbs but was badly scratched.

The following is from the Abbeville Medium: "The Rev. David Shepperson, of Lake View, Ark., who has been extended a call by the congregation of the Presbyterian church, was here and preached at that church on Sunday morning and evening to large congregations. He made a most favorable impression. He gave the membership to understand that he wished it to consider the question of calling him, again, since they have seen and heard him. He expects to come back here and lead the prayer meeting service on Thursday evening. It is probable a congregational meeting of the members will be held on Sunday to consider the matter. While here he was entertained by Mr. and Mrs. C. D. Brown. Rev. Shepperson is a brother of Dr. Flournoy Shepperson, pastor of First Presbyterian church.

The state department of education yesterday paid out the sum of \$384,412 in state aid to various school districts over the state, the money being distributed under the equalizing law which guarantees a seven months' school term under certain conditions. The money goes to 603 districts in 39 counties. The distribution of this fund will enable approximately 1,600 teachers to receive their pay which has been considerably delayed in many instances. Chester county, which has two districts, received \$493. Horry county lead in the state, having 72 districts and received \$42,456.

It is a Pleasure for us to furnish our customers with free air, water, battery service, etc. We handle the best in oils and gasoline. Victory Service Station.

We are requested to announce that there will be an ice cream supper for "Goodman next Friday" night, June 14th, for the benefit of the Y. P. C. U. Everybody invited.

Miss Elizabeth left Friday to visit her cousin, Miss Helen Lewis White and Ruth Fincher, at Rock Hill, S. C.

The congregation of St. Mark's Episcopal church will have a picnic at Mr. L. M. Wooten's estate, near Lewis Runoff, Thursday.

Mr. F. R. Eisenmann returned Sunday from New Orleans. Later he went to attend a meeting of oil mill superintendents.

Mr. and Mrs. H. H. Kester spent Sunday in Lancaster with Mr. and Mrs. John H. Pegg.

See The Chester Auto Paint Shop before having your car painted. Old Pavilion.

Cotton has been dropping in big numbers the last few days, and is expected to be outside of Wall street, without a cause. Cotton on the local market was bringing around ten cents yesterday.

Misses Cecy and Annie Corbett left today for Jonesville to visit relatives. From Jonesville they will go to Greenville to attend the Baptist summer assembly.

Miss Beesie Wagner has returned to the city after a visit to relatives at Washington, N. C. Misses Maggie Lathrop and Mary Wall spent the week-end in Lexington with Miss Wagner.

Mr. J. M. Robinson was a Lancaster visitor Sunday.

The first cotton bloom of the season was brought to Chester Friday afternoon by Mr. S. R. Varnadore, who lives on Mr. L. C. Worthy's Broad river farm.

Miss Pauline Mariott, of Lancaster, is visiting at the home of Dr. and Mrs. J. P. Young, on York street. Miss Mariott is a student at the Columbia University, New York.

Aged Lady Dies At Blackstock.

Blackstock, June 20.—Last Wednesday Mrs. Roxana Dixon Mobley died at the home of her daughter, Mrs. G. L. Kennedy. Mrs. Mobley was 84 years old. About three years ago she was partially paralyzed, but had been able to be about the home in her rolling chair. Two days before she died she suffered a second stroke. She was laid to rest in the old Concord cemetery at Woodward. The funeral was conducted by her former pastor, Dr. Mayes, of Winnsboro, six grandsons acting as pallbearers.

Mrs. Mobley was a daughter of Col. Tillman Lee and Eliza, Haines Dixon. She was born at Liberty Hill, Berkeley county, August 10, 1835. On December 6, 1854, she was married to Edward D. Mobley. Since his death some years ago she made her home with the children, of whom the following reside in or near Blackstock: Mrs. G. L. Kennedy, Mrs. Daniel Hall, Miss Martha Mobley, S. D. Mobley, J. D. Mobley, D. B. Mobley and E. W. Mobley. The other living children are Mrs. D. I. Crawford, of Winnsboro, E. L. Mobley of Columbia, D. M. Mobley of Birmingham, and A. L. Mobley of Berry, Texas. Besides these 11 children, there are 37 grandchildren and 31 great-grandchildren. Mrs. Mobley was a lifelong member of the Presbyterian church.

Mrs. Hardin Elected Dean.

The following dispatch has been received from Columbia:

Mrs. Kate Glenn Hardin of Chester has been selected to fill the newly created office of dean of women at Columbia college. Mrs. Hardin is the widow of the late Dr. Edward K. Hardin, who at the time of his death was one of the most prominent young ministers in the Southern Methodist church.

Mrs. Hardin is the daughter of Mr. and Mrs. J. L. Glenn of Chester with whom she has been making her home since the death of her husband a year or so ago.

She is a graduate of Columbia college and has had a number of years of successful experience as a teacher. She is a woman of pleasing personality, culture and is of sympathetic yet positive temperament. She is a Christian character and a lover of young people, having had successful experience in dealing with young folk.

Auto Thieves Take Cars.

Automobile thieves visited Chester both Saturday and Sunday night.

Saturday night Mr. W. A. Barnett, of the Redwila Mill village, left his Ford standing in front of Dreamland Theatre and a thief appropriated it to his own use. Various towns were notified of the theft and yesterday a wire was received from Columbia advising that the car and the thief had both been captured in that city. Deputy Howze went to Columbia this morning to bring the car and thief back to Chester.

Sunday night Dr. W. E. Anderson had his Cole Eight car stolen from in front of the Presbyterian church. However the parties who stole the car let it slide into a ditch almost in the town of Blackstock and after making an effort to get someone pull the car out and failing, left it. Dr. Anderson and officers were advised and went down yesterday morning and brought the car back to Chester.

Last night, a young lady, a colored man, Tom Mobley, had his Ford stolen and we hear that it has been found about twelve miles from Chester.

One of the parties who stole Dr. Anderson's car left his rain coat in the car with the name "V. Norwood" written on it and also a picture of a young lady was found in one of the pockets. It is hoped this will give a clue which will result in the capture of the guilty parties, who are thought to be soldiers from Camp Jackson.

CARD OF THANKS.

We wish to thank our many friends and neighbors for their kindness and expressions of sympathy shown us during the illness and death of our beloved daughter and sister.

Mr. and Mrs. J. C. O'Donnell and Family.

Pretty Announcement Party.

Mrs. Ernest W. Gay, of McDonnellville, was hostess at a pretty party Saturday morning when the engagement of Miss Allie Matthews, of Lovryville, to Mr. Lemuel C. Covington Berry, of Camden, S. C., was announced.

Large waves of Queen Anne's lace and festoons of the trumpet vine gave the living room of the home a festive appearance.

After several games of rook the guests were invited into the dining room where the significant decorations of a bridal kelpie party gave them a hint of what might be expected. From the pyramid of Queen Anne's lace in the center of the table, ribbon streamers radiated and attached to each was a heart shaped note giving some detail of the wedding. The guests were invited to draw their ribbons and read the inscriptions. The first bore the date, July 21st, and the last, the names of Miss Timpan and Mr. Berry.

A delicious salad course and toast was served by the hostess assisted by Mrs. Elizabeth Lowry Simpson and Mrs. Ray Riddle.

VACANCIES AT WINTHROP

At Winthrop college 60 scholarship vacancies are to be filled by the competitive examinations to be held July 1 to 2.

Questions for this examination have been prepared by the Winthrop faculty and distributed to the 46 county superintendents of education. Answers to these questions will be graded and the results of the examinations will be announced by Winthrop College authorities.

The law provides for 124 scholarships at Winthrop, these being apportioned among the 46 counties on the same basis as the members of the house of representatives are apportioned, each county being allowed one scholarship for each representative. These scholarships, as these at Glenison, are worth \$100 each plus tuition.

The report to the State superintendent of education shows 64 half-day students for next year at Winthrop.

Getting a bit of the Rut

U. S. We have tried it ourselves we are not a nation to be. We have much good it takes to break away from our net rule of living and take a leap into the open, not in the spirit of the highwayman, it is true, but fired with the call of adventure and the desire to see the world, to solve something of the course of life outside our beaten tracks. The pity is that so few persons are able to lead this call when they hear it, duties that will not bear procrastination, the lack of funds and other reasons preventing many persons from daring a side trip into the great adventure of life on the unknown outside. We get so accustomed to the narrow groove in which we walk day by day that we hardly permit ourselves even a peep over the barriers that seem at times to reach up so high on either side as to shut us into a little world all our own. Yet there are times when we long with an eagerness that defies caution and an enthusiasm that scorns the danger signals to break away from the old, old monotonous way of living and to try our fortunes at something else. It is said, indeed, that they are always who dare not, and sometimes we heartily concur in that thought. It is true, of course, that many persons would achieve more in the end by following the thread they are weaving so ceaselessly and so industriously into the pattern of their responsibilities, but the mind grows dull when there is no change in its daily diet, and there comes the day when, throwing restraint aside, a man bursts the bonds that have held him down and takes the step that leads him into unfamiliar experiences and untold duties. Of course, it all may turn out very delightfully for him and he may make a greater success than he could have otherwise done, yet there is a certain risk in breaking the ties to which we are accustomed. It may be that we have not looked upon them as such, but rather as duties and responsibilities that we could not well evade, yet when we come to think of it duty and responsibility are but sacred ties that keep us at the home post regardless of individual preferences. It is because of this knowledge, however subconscious it may be, that we defer taking that uncertain step which means changing from one way of living into another. Of course, a man has only himself to think of, he can well afford to run his chances, but when he has others dependent upon him he realizes that he must consider his actions carefully and he consequently crushes down many ambitions and hopes that, otherwise he would give a chance to express themselves.

Yet, for all that may be said for us against making a complete change of work and the risks that are thus necessarily run it is a dull existence that confines itself to the narrow confines of a single sphere of activity. If we cannot wholly loosen the bonds that keep us down it is not possible to permit ourselves some opportunity of changing it, so to say, in other directions even though we are forced to cling to our main duties. Even the small matter of shift-

ing his position temporarily eases a man forced to stick long hours at a single job. It is just the same way a temporary shifting of our activities from one channel into another affords immense relief. For one thing it takes our minds out of the rut in which they have been running and puts it into new and fresh channels that may lead us into bigger opportunities than we have dreamed of. Besides, we all know that it never says to confine ourselves too long a time in one particular sphere of activity. We run the risk of developing a single track mind that puts us eventually into that class of self-consciousness, if not embittered, individuals who think that everything will go wrong unless their views prevail. It is remarkable how high a value we place upon our own opinions when they are questioned by others. But the controversy which generally ensues when determined views conflict with contrary conduct is a most regrettable result that scatters the dust of the ages from judgments that have been kept hidden away in some corner, and many times the wish of fresh air and sunlight although resisted at first brings new life and new ideas to replace the old. The thing is better than stagnation in any line of business or activity, and the best thing that the tireless worker can do, if he may not break away entirely from the burdens that weigh upon him, is to change his work from time to time and to try in this way to find relief and fresh courage for the future.

DYNAMITE FOUND IN CAR OF COAL

High Explosive Discovered Mixed With Fuel—Mystery Shrouds Find.

St. Matthews, June 15.—While engaged in unloading a car of coal yesterday, the Calhoun Supply company made a find that was not included in their order.

Six large sticks of dynamite all neatly bundled together and caps to suit were found tacked away in the recesses of the large lump of coal. Fortunately the caps had not been applied but were in a separate box which was charged with the blast as to how the explosive found its way into the car. The consignees state that it would seem that the coal mine was being smuggled away in the must have been recurring to the gutter earth from the mine, carried the explosive with him, riding on the car until he reached his station, and in forgetfulness, leaving them for their long ride. Others have suggested the idea that improper motives may have been behind the matter. However it got there, the manager of the supply company got around gingerly and handled the coal like precious goods, and it was definitely ascertained that there was no more to be found. He will not touch the dynamite as a part of the next order.

One of the greatest butter exporters in the world is Cork, Ireland. One year's export of butter amounts to nearly 750,000 tons.

BUSHISMS

By Frank Grand.

Irvin T. Bush is the man who found a wilderness in New York harbor and built there the largest ship terminal in the world.

He is America's greatest genius of distribution. And it is as important to move things as to make them.

He created the Nash terminal which covers 200 acres, and can accommodate 27 steamship lines.

He did for live people in America what the pyramid builders did for dead people in Egypt.

In a recent issue of the American Legion Weekly he contributes an article which contains a deal of sound sense. Here are a few of his ideas, which, as you might suppose, are worth thinking on. I have taken the liberty of condensing.

The way to get at the top, he writes, is to begin by being the best man at the bottom.

These are hard times, but young men—now beginning business—are lucky for a career founded in such times will probably have firmer foundations than a career begun in times of extravagance.

The success of America as a nation is not an accident. It has come because our forefathers took off their coats and worked.

Two things determine success, the right policy and hard work.

In England the labor union leaders have adopted the policy of limited production. Often a workman is allowed to do only a certain amount of work each day. That is based on the theory that the less the workers do the more jobs there will be.

This policy will spell national disaster and a low level of wages.

No nation can regulate its own wages. They will be brought down to the level of the wages of those nations with whom it competes, unless it protects its own markets.

The buying power of the world can be increased in only two ways. One, by inflation of the currency, printing more money, which always brings on collapse. The other by increasing production.

If I were a young man today I would go into the country and engage in farming, or in some business closely related to agriculture. The attractions of the city are great, but on the whole those of the country are greater, considering health, comfort and freedom from social disaster.

Good times on the farm are as rare as anywhere else, and bad times are less burdensome.

Every once in a while I get all puffed up with world ideals, but after a mental spree I come back to the realization that I can save the world best by doing my own little job well.

A New York magistrate sentenced a barber to five days in the workhouse for presenting a bill of \$6.15 to a customer desiring only a shave.

FORMER ARMY OFFICERS MAY BE PROSECUTED

Washington, June 15.—Criminal proceedings against a number of former army officers may follow the action of President Harding in connection with United States Harness company, of Ranam, W. Va., for the disposal of surplus harness. It was said tonight at the department of justice.

Attorney General Daugherty, it was said, was considering the government's course of action and was expected to announce his decision shortly.

Consolidation of the contracts by President Harding in connection with Secretary Weeks, who explained that they were entered into by a former director of the war department, with

the approval of Secretary Baker, and provided that the large accumulation of surplus military harness should be turned over to the company for disposal.

During the past year the Chicago, Milwaukee & St. Paul Railroad handled nearly sixteen million passengers, not one of whom was killed.

WRIGLEYS

The children love Wrigley's—and it's good for them.

Made under conditions of absolute cleanliness and brought to them in Wrigley's sealed sanitary package.

Satisfies the craving for sweets, aids digestion, sweetens breath, alays thirst and helps keep teeth clean.

Costs little, benefits much.

Colds & Headache

For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THE DEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved my family many times. I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

At all druggists.
